Kit #	Description and what's in the kit
AA991A	**1200mx or 660ex MO to UDO Conversion Kit**
	4 UDO drives in two modules with ACI cable, SCSI cable and Power cable included in the module
	Upper Interposer board
	1 SCSI jumper cable
	1 new label for UDO
	1 new buffer card
	1 UIP to Buffer SCSI cable
	1 new GPIO cable
AA992A	**2200mx or 1200ex MO to UDO conversion and 3800ux Capacity Kit**
	Lower Interposer board
	2nd buffer board
	1 SCSI jumper cable
	LIP to Buffer SCSI cable
	2nd power supply (already set up)
	Power supply DC cable
	Power supply AC cable
	Media detect station
	MO drive conversion for converting 4 MO drives
AA993A	**3800ux or 7100ux Drive Upgrade Kit**
	2 UDO drives in a module including
	UDO SCSI cable
	Drive power cable
	UDO ACI cable
AA994A	**300mx or 160ex MO to UDO Conversion Kit**
	2 UDO drives in separate drive modules each with
	UDO Udot ACI cable
	UDO drive power cable
	UDO Udot SCSI cable
	Interposer board
	2 SCSI jumper cables (for unused scsi on interposer)
	Buffer card
	New label for UDO
	LVDS Interposer to buffer SCSI cable
	SE interposer to controller SCSI cable
AA995A	**600mx Mixed Drive Conversion Kit**
	Media detect station
	MO to new interposer cables for two MO drives including
	2 MO ACI cable
	2 MO LVDS cable
	2 LVDS to SE converter
AA996A	**1000ux Drive Upgrade Kit**
	2 UDO drives in individual modules each including
	Udot UDO ACI cable
	Udot drive power cable
	Udot UDO SCSI cable
	ID module (also referred to as the dongle)
AA998A	**700ux drive upgrade**
	UDO drive and brackets
AD500A	**700ux capacity upgrade**
	Capacity dongle
