

IBM IntelliStation US Warranty Upgrades (IBM ServicePac for Warranty and Maintenance Options)

IBM ServicePac for Warranty and Maintenance Options

With IBM ServicePac for Warranty and Maintenance Options, you can upgrade the service included with your hardware's original warranty. Choose the right package with the service response time that's right for you, with coverage for parts and labor.

We provide a range of service levels based on your specific product type. Choose the level that best meets your service need. Service must be purchased during the original product warranty period, and your service term begins concurrent with the product warranty.

IBM ServicePac services are:

- Easy to use
- Affordable
- Available in convenient configurations

Service options meet your needs

To select the ServicePac that's right for you, from the table below simply...

1. Select the Machine Name, Type and Model Number that matches the system for which you'd like to upgrade the warranty service
2. Choose the Service Level* that meets your service needs
3. Contact your IBM Business Partner to place your order

***Service Levels**

24 x 7 x 4 Hour

A service technician is scheduled to arrive at your location within 4 hours after remote problem determination is completed. Service is provided around the clock every day, including IBM holidays.

9 x 5 x 4 Hour

A service technician is scheduled to arrive at your location within 4 hours after remote problem determination is completed. Service hours are 8 a.m. to 5 p.m. local time, Monday through Friday, excluding IBM holidays.

9 x 5/Next business day

A service technician is scheduled to arrive at your location on the business day after we receive your call. Service hours are 8 a.m. to 5 p.m. local time, Monday through Friday, excluding IBM holidays.

IBM IntelliStation US Warranty Upgrades (IBM ServicePac for Warranty and Maintenance Options)

Limitations of service

These services are available for machines used solely for business, professional, or trade purposes and not for machines used for personal, family or household purposes. Service is not provided in homes or home offices. Not all machine types and models are covered. Service period begins with the equipment date of purchase. Service must be purchased during the original limited product warranty period. Service levels are response time objectives and are not guarantees. A service technician is scheduled to arrive at your location within two or four business hours or the next business day (depending on service) after remote problem determination is completed. For the 9x5x4 hour service, calls dispatched after 1:00 p.m. local time, you can expect the service technician to arrive by the morning of the following business day. For non-critical service requests, a service technician will arrive by the end of the following business day. If the machine problem turns out to be an easily replaced Customer Replaceable Unit (CRU), IBM will express ship the part to you for quick replacement. Onsite 24x7x2 hour service for servers and server storage peripherals is not available in all locations. External peripherals, such as racks, tape drives, and channel controllers, are not covered along with the processor and require separate service coverage. Service activation is required immediately following purchase. Visit <http://www.ibm.com/services/its/us/source/wamomxeu.pdf> for complete details.

For ThinkPad notebooks requiring LCD or other component replacement, IBM may choose to perform service at the depot repair center. For failing non-IBM components, customer must provide replacement part unless IBM has a Technical Support Agreement with the manufacturer. Service does not cover accessories, supply items and certain parts such as batteries, frames and covers.
