

MobileStar Network transparently gives you full reign of your communications, your application selections and TCP/IP protocols via a public IP address and a reliable, high-speed link to the Internet.

Here's how it works.

A MobileStar Subscriber Kit contains everything you need to get connected to the Internet at any MobileStar location.

MobileStar installs high-speed wireless LANs in hotels, airports and convention centers across the country. Go anywhere on the Internet from any MobileStar location!

Dallas-based MobileStar Network Corporation delivers the full power of a T1 connection right to your laptop. MobileStar Network has created an innovative solution for keeping travelers in touch: a low-cost subscription service that provides high-speed access to the Internet at hotels, major airports, Admirals Clubs and convention centers across the country.

Not only does the MobileStar wireless network make connecting to the Internet easy and convenient, it also delivers remarkable speeds. In fact, information is transferred 40-50 times faster than that of a standard dial-up connection.
