General safety guidelines

Always observe the following precautions to reduce the risk of injury and property damage.

Service

Do not attempt to service a product yourself unless instructed to do so by the Customer Support Center. Use only a service provider who is approved to repair your particular product.

Note: Some parts can be upgraded or replaced by the customer. These parts are referred to as Customer Replaceable Units, or CRUs. Lenovo expressly identifies CRUs as such, and provides documentation with instructions when it is appropriate for customers to replace those parts. You must closely follow all instructions when performing such replacements. Always make sure that the power is turned off and that the product is unplugged from any power source before you attempt the replacement. If you have any questions or concerns, contact the Customer Support Center.

Power cords and power adapters

Use only the power cords and power adapters supplied by the product manufacturer.

Never wrap a power cord around the power adapter or other object. Doing so can stress the cord in ways that can cause the cord to fray, crack or crimp. This can present a safety hazard.

Always route power cords so that they will not be walked on, tripped over, or pinched by objects.

Protect the cord and power adapters from liquids. For instance, do not leave your cord or power adapter near sinks, tubs, toilets, or on floors that are cleaned with liquid cleansers. Liquids can cause a short circuit, particularly if the cord or power adapter has been stressed by misuse. Liquids can also cause gradual corrosion of the power cord terminals and/or the connector terminals on the adapter which can eventually result in overheating.

Always connect power cords and signal cables in the correct order and ensure that all power cord connectors are securely and completely plugged into receptacles.

Do not use any power adapter that shows corrosion at the ac input pins and/or shows signs of overheating (such as deformed plastic) at the ac input or anywhere on the power adapter.

Do not use any power cords where the electrical contacts on either end show signs of corrosion or overheating or where the power cord appears to have been damaged in any way.

Extension cords and related devices

Ensure that extension cords, surge protectors, uninterruptible power supplies, and power strips that you use are rated to handle the electrical requirements of the product. Never overload these devices. If power strips are used, the load should not exceed the power strip input rating. Consult an electrician for more information if you have questions about power loads, power requirements, and input ratings.

Plugs and outlets

If a receptacle (power outlet) that you intend to use with your computer equipment appears to be damaged or corroded, do not use the outlet until it is replaced by a qualified electrician.

Do not bend or modify the plug. If the plug is damaged, contact the manufacturer to obtain a replacement.

Some products are equipped with a three-pronged plug. This plug fits only into a grounded electrical outlet. This is a safety feature. Do not defeat this safety feature by trying to insert it into a non-grounded outlet. If you cannot insert the plug into the outlet, contact an electrician for an approved outlet adapter or to replace the outlet with one that enables this safety feature. Never overload an electrical outlet. The overall system load should not exceed 80 percent of the branch circuit rating. Consult an electrician for more information if you have questions about power loads and branch circuit ratings.

Be sure that the power outlet you are using is properly wired, easily accessible, and located close to the equipment. Do not fully extend power cords in a way that will stress the cords.

Connect and disconnect the equipment from the electrical outlet carefully

Batteries

All personal computers manufactured by Lenovo contain a non-rechargeable coin cell battery to provide power to the system clock. In addition many mobile products such as ThinkPad notebook PCs utilize a rechargeable battery pack to provide system power when in portable mode. Batteries supplied by Lenovo for use with your product have been tested for compatibility and should only be replaced with Lenovo approved parts.

Never attempt to open or service any battery. Do not crush, puncture, or incinerate batteries or short circuit the metal contacts. Do not expose the battery to water or other liquids. Only recharge the battery pack strictly according to instructions included in the product documentation.

Battery abuse or mishandling can cause the battery to overheat, which can cause gasses or flame to “vent” from the battery pack or coin cell. If your battery is damaged, or if you notice any discharge from your battery or the buildup of foreign materials on the battery leads, stop using the battery and obtain a replacement from the battery manufacturer.

Batteries can degrade when they are left unused for long periods of time. For some rechargeable batteries (particularly Lithium Ion batteries), leaving a battery unused in a discharged state could increase the risk of a battery short circuit, which could shorten the life of the battery and can also pose a safety hazard. Do not let rechargeable Lithium-Ion batteries completely discharge or store these batteries in a discharged state.

Heat and product ventilation

Computers generate heat when turned on and when batteries are charging. Notebook PCs can generate a significant amount of heat due to their compact size. Always follow these basic precautions:

- Do not leave the base of your computer in contact with your lap or any part of your body for an extended period when the computer is functioning or when the battery is charging. Your computer produces some heat during normal operation. Extended contact with the body could cause discomfort or, potentially, a skin burn.
- Do not operate your computer or charge the battery near flammable materials or in explosive environments.
- Ventilation slots, fans and/or heat sinks are provided with the product for safety, comfort, and reliable operation. These features might inadvertently become blocked by placing the product on a bed, sofa, carpet, or other flexible surface. Never block, cover or disable these features.

CD and DVD drive safety

CD and DVD drives spin discs at a high speed. If a CD or DVD is cracked or otherwise physically damaged, it is possible for the disc to break apart or even shatter when the CD drive is in use. To protect against possible injury due to this situation, and to reduce the risk of damage to your machine, do the following:

- Always store CD/DVD discs in their original packaging
- Always store CD/DVD discs out of direct sunlight and away from direct heat sources
- Remove CD/DVD discs from the computer when not in use
- Do not bend or flex CD/DVD discs, or force them into the computer or their packaging
- Check CD/DVD discs for cracks before each use. Do not use cracked or damaged discs

Attention: To reduce the risk of fire, use only No.26 AWG or larger (thicker) telephone cable.

Attention: AC Adapter: Use the UL Listed Power Supply, rated 20 Vdc 3.25 A or equivalent.

Important information for the European Directive 2002/96/EC

EU Only

The WEEE mark applies only to countries within the European Union (EU) and Norway. Appliances are labeled in accordance with European Directive 2002/96/EC concerning waste electrical and electronic equipment (WEEE). The Directive determines the framework for the return and recycling of used appliances as applicable throughout the European Union. This label is applied to various products to indicate that the product is not to be thrown away, but rather reclaimed upon end of life per this Directive. Users of electrical and electronic equipment (EEE) with the WEEE marking per Annex IV of the WEEE Directive must not dispose of end of life EEE as unsorted municipal waste, but use the collection framework available to them for the return,

recycle, recovery of WEEE and minimize any potential effects of EEE on the environment and human health due to the presence of hazardous substances. For additional WEEE information go to:
<http://www.lenovo.com/lenovo/environment>.

Ce marquage s'applique uniquement aux pays de l'Union européenne (EU) et à la Norvège. Les appareils sont marqués conformément à la Directive 2002/96/CE du Conseil Européen relative aux déchets d'équipements électriques et électroniques (DEEE). Cette directive, applicable à l'ensemble des pays de l'Union européenne, concerne la collecte et le recyclage des appareils usagés. Ce marquage est apposé sur différents produits pour indiquer que ces derniers ne doivent pas être jetés, mais récupérés en fin de vie, conformément à cette directive. Les utilisateurs d'équipements électriques et électroniques portant le marquage DEEE, conformément à l'Annexe IV de la Directive DEEE, ne doivent pas mettre au rebut ces équipements comme des déchets municipaux non triés, mais ils doivent utiliser la structure de collecte mise à disposition des clients pour le retour, le recyclage et la récupération des déchets d'équipements électriques et électroniques, afin de réduire tout effet potentiel des équipements électriques et électroniques sur l'environnement et la santé en raison de la présence possible de substances dangereuses dans ces équipements. Pour plus d'informations sur les équipements électriques et électroniques, consultez le site <http://www.lenovo.com/lenovo/environment>.

Die WEEE-Kennzeichnung gilt nur in Ländern der Europäischen Union und in Norwegen. Geräte werden gemäß der Richtlinie 2002/96/EC der Europäischen Union über Elektro- und Elektronikaltgeräte (WEEE) gekennzeichnet. Die Richtlinie regelt die Rückgabe und Wiederverwertung von Altgeräten innerhalb der Europäischen Union. Mit dieser Kennzeichnung versehene Altgeräte dürfen gemäß dieser Richtlinie nicht weggeworfen werden, sondern müssen zurückgegeben werden. Anwender von Elektro- und Elektronikgeräten mit der WEEE-Kennzeichnung dürfen diese gemäß Annex IV der WEEE-Richtlinie nach ihrem Gebrauch nicht als allgemeinen Hausmüll entsorgen. Stattdessen müssen diese Geräte im verfügbaren Sammelsystem zurückgegeben werden und damit einem Recycling- oder Wiederherstellungsprozess zugeführt werden, bei dem mögliche Auswirkungen der Geräte auf die Umwelt und den menschlichen Organismus aufgrund gefährlicher Substanzen minimiert werden. Weitere Informationen zur Entsorgung von Elektro- und Elektronikaltgeräten finden Sie unter der Adresse:
<http://www.lenovo.com/lenovo/environment>.

La marca WEEE se aplica sólo a los países pertenecientes a la Unión Europea (UE) y a Noruega. Los aparatos se etiquetan conforme a la Directiva Europea 2002/96/EC relativa a los residuos de equipos eléctricos y electrónicos (WEEE). La directiva determina el marco para devolver y reciclar los aparatos usados según sea aplicable en toda la Unión Europea. Esta etiqueta se aplica a varios productos para indicar que el producto no se va a desechar, sino que va ser reclamado por esta Directiva, una vez termine su ciclo de vida. Los usuarios de

los equipos eléctricos y electrónicos (EEE) con la marca WEEE por el Anexo IV de la Directiva WEEE no deben tratar los EEE como desperdicios municipales no clasificados, una vez terminado su ciclo de vida, sino que deben utilizar el marco de recogida disponible para devolver, reciclar y recuperar los WEEE y minimizar los posibles efectos de los EEE en el medio ambiente y en la salud debidos a la presencia de substancias peligrosas. Para obtener información adicional acerca de WEEE consulte el sitio:
<http://www.lenovo.com/lenovo/environment>.

Le informazioni su WEEE si applicano solo ai paesi dell'Unione Europea (UE) e alla Norvegia. Gli apparecchi vengono etichettati in base alla Direttiva europea 2002/96/EC relativa a WEEE (waste electrical and electronic equipment). La direttiva stabilisce la struttura per la restituzione ed il riciclaggio degli apparecchi utilizzati applicabile in tutte l'Unione Europea. Questa etichetta si applica a diversi prodotti al fine di indicare che tali prodotti non devono essere eliminati ma riciclati al termine del loro ciclo di utilizzo. Gli utenti EEE (electrical and electronic equipment) con contrassegno WEEE per Annex IV della direttiva WEEE non devono smaltire l'EEE come rifiuto municipale non ordinato, ma utilizzare la struttura di raccolta disponibile per la restituzione, il riciclo ed il recupero di WEEE e ridurre i potenziali effetti dell'EEE sull'ambiente e sulle persone a causa della presenza di sostanze nocive. Per ulteriori informazioni su WEEE, andare all'indirizzo:
<http://www.lenovo.com/lenovo/environment>.

A marca REEE (Resíduos de Equipamentos Eléctricos e Electrónicos) aplica-se apenas aos Estados-Membros da União Europeia (UE) e à Noruega. Os aparelhos eléctricos deverão ser identificados em conformidade com a Directiva Europeia 2002/96/CE relativa a REEE (Resíduos de Equipamentos Eléctricos e Electrónicos). A Directiva determina o enquadramento normativo relativamente à devolução e reciclagem de aparelhos eléctricos utilizados, conforme aplicável no espaço da União Europeia. Esta etiqueta deverá ser aposta em diversos produtos para indicar que os mesmos não poderão ser deitados fora mas sim recuperados no final da respectiva vida útil, de acordo com a referida Directiva. Os utilizadores de equipamentos eléctricos e electrónicos (EEE) com a marca REEE em conformidade com o Anexo IV da Directiva REEE não poderão deitar fora os EEE no final da respectiva vida útil como lixo municipal não separado, devendo antes utilizar a estrutura de recolha que lhes tenha sido disponibilizada para efeitos de devolução, reciclagem e recuperação de REEE, por forma a minimizar potenciais efeitos dos EEE sobre o ambiente e saúde pública resultantes da presença de substâncias perigosas. Para mais informações sobre REEE (Resíduos de Equipamento Eléctrico e Electrónico), visite:
<http://www.lenovo.com/lenovo/environment>.

Het WEEE-merkteken geldt alleen voor landen binnen de Europese Unie (EU) en Noorwegen. Apparaten worden van een merkteken voorzien overeenkomstig Europese Richtlijn 2002/96/EC inzake afgedankte elektrische

en elektronische apparatuur (waste electrical and electronic equipment, WEEE). Deze richtlijn bepaalt het raamwerk voor het retourneren en recyclen van gebruikte apparatuur, zoals van toepassing binnen de Europese Unie. Dit merkteken wordt aangebracht op diverse producten om aan te geven dat het product in kwestie niet dient te worden weggegooid, maar dat het aan het eind van de levenscyclus krachtens deze Richtlijn dient te worden gerecycleerd. Gebruikers van elektrische en elektronische apparaten (EEE) welke zijn voorzien van het WEEE-merkteken zijn gehouden aan Annex IV van de WEEE Richtlijn en mogen gebruikte EEE niet weggooien als ongesorteerd afval, maar dienen gebruik te maken van het inzamelproces voor het teruggeven, recyclen en terugwinnen van WEEE dat voor hen beschikbaar is, en dienen de mogelijke effecten die EEE ten gevolge van de aanwezigheid van schadelijke stoffen kunnen hebben op het milieu en de volksgezondheid, tot een minimum te beperken. Voor meer informatie over WEEE gaat u naar: <http://www.lenovo.com/lenovo/environment>.

WEEE-mærkningerne gælder kun for lande i EU samt Norge. Udstyr er mærket i henhold til Direktiv 2002/96/EC om affald af elektrisk og elektronisk udstyr (WEEE). Direktivet regulerer rammerne for returnering og genbrug af brugt udstyr i EU. Dette mærke sættes på forskellige produkter for at angive, at produktet ifølge direktivet ikke må smides bort, men skal genbruges eller genindvindes. Brugere af elektrisk og elektronisk udstyr (EEE), som er mærket i henhold til Bilag IV i WEEE-direktivet, må ikke bortskaffe EEE sammen med usorteret husholdningsaffald, men benytte de returnerings- og indsamlingsordninger, der står til rådighed for dem med henblik på genbrug, genvinding og andre former for nyttiggørelse samt minimering af de potentielle virkninger for miljøet og menneskers sundhed af tilstedeværelsen af farlige stoffer. Der er flere oplysninger om WEEE på adressen <http://www.lenovo.com/lenovo/environment>.

Sähkö- ja elektroniikkalaiteromu (Waste electrical and electronic equipment, WEEE)-merkintä koskee vain Euroopan unionin (EU) jäsenmaita ja Norjaa. Sähkö- ja elektroniikkalaitteet merkitään Euroopan parlamentin ja neuvoston direktiivin 2002/96/EY mukaisesti. Kyseinen direktiivi määrittää Euroopan Unionin alueella käytössä olevat palautus- ja kierrätyskäytännöt. WEEE-merkintä laitteessa osoittaa, että direktiivin ohjeiden mukaan tuotetta ei tulisi hävittää sen elinkaaren päässä, vaan sen sijaan se on kierrätettävä. Käyttäjien, joiden sähkö- ja elektroniikkalaitteissa on tämä sähkö- ja elektroniikkalaiteromun direktiivin liitteen IV mukainen merkintä, tulee kierrättää kyseiset laitteet käytettävissä olevien resurssien mukaan, varmistaen sen, että niistä tai niissä käytetyistä materiaaleista ei aiheudu haittaa ympäristölle tai ihmisten terveydelle. Sähkö- ja elektroniikkalaitteita ei saa hävittää sekajätteen mukana. Lisätietoa sähkö- ja elektroniikkalaiteromun kierrättämisestä on WWW-sivustossa <http://www.lenovo.com/lenovo/environment>.

WEEE-merket gjelder bare for land i Den europeiske union (EU) og Norge. Utstyr merkes i henhold til EU-direktiv 2002/96/EF om avfall fra elektrisk og elektronisk utstyr (WEEE). Direktivet fastsetter rammene for retur og resirkulering av brukt utstyr innenfor EU. Dette merket benyttes på forskjellige produkter for å angi at produktet ikke må kastes, men må behandles i henhold til dette direktivet ved slutten av produktets levetid. Brukere av elektrisk og elektronisk utstyr (EEE) som er merket med WEEE-merket ifølge vedlegg IV i WEEE-direktivet, må ikke kaste utstyret som usortert husholdningsavfall, men må bruke de tilgjengelige innsamlingssystemene for retur, resirkulering og gjenvinning av kassert elektrisk og elektronisk utstyr for å redusere en eventuell skadelig virkning av elektrisk og elektronisk utstyr på miljø og helse, som skyldes skadelige stoffer. Du finner mer informasjon om WEEE på denne adressen: <http://www.lenovo.com/lenovo/environment>.

WEEE-mærkingen är tillämplig enbart i EU-länderna och Norge. Apparater märks i enlighet med EU-direktiv 2002/96/EG om avfall som utgörs av eller innehåller elektriska eller elektroniska produkter (WEEE). I direktivet fastställs det ramverk för återlämnande och materialåtervinning av uttjänta apparater som gäller inom hela Europeiska unionen. Etiketten sätts fast på produkter av olika slag för att ange att produkten inte får kastas, utan måste återtas i slutet av produktcykeln i enlighet med direktivet. Användare av elektrisk och elektronisk utrustning med WEEE-märkning enligt bilaga IV till WEEE-direktivet får inte kassera sin uttjänta elektriska eller elektroniska utrustning som osorterat kommunalt avfall, utan måste utnyttja det tillgängliga insamlingsnätverket för återlämnande och återvinning av utrustningen och därigenom minimera riskerna för miljö och människans hälsa av utrustningens innehåll av farliga ämnen. Mer WEEE-information finns på adressen: <http://www.lenovo.com/lenovo/environment>.

Značka WEEE se týká pouze zemí Evropské Unie (EU) a Norska. Zařízení jsou označena v souladu s evropskou směrnicí 2002/96/EC, která se týká likvidace starých elektrických a elektronických zařízení (WEEE). Směrnice určuje pravidla pro vrácení a recyklaci použitých zařízení, která jsou platná v Evropské Unii. Tímto štítkem se označují různá zařízení. Označuje, že produkt nesmí být vyhozen do běžného odpadu, ale po skončení životnosti vrácen podle této směrnice. Uživatelé takovýchto zařízení označených značkou WEEE podle dodatku IV směrnice WEEE nesmí na konci životnosti vyhodit zařízení jako netříděný odpad, ale musí použít dostupnou sběrnou síť, aby bylo zařízení recyklováno a aby byly minimalizovány možné dopady zařízení na prostředí a zdraví lidí (zařízení může obsahovat nebezpečné látky). Další informace o značce WEEE naleznete na webových stránkách: <http://www.lenovo.com/lenovo/environment>.

Το σήμα WEEE χρησιμοποιείται μόνο σε χώρες τις Ευρωπαϊκής Ένωσης και στη Νορβηγία. Στις συσκευές τοποθετούνται ετικέτες που αφορούν την απόρριψη ηλεκτρικών και ηλεκτρονικών εξαρτημάτων σύμφωνα με την Ευρωπαϊκή Οδηγία 2002/96/EC. Η Οδηγία αυτή καθορίζει το πλαίσιο για την επιστροφή και την ανακύκλωση χρησιμοποιημένων συσκευών που ισχύει σε όλη την Ευρωπαϊκή Ένωση. Η ετικέτα τοποθετείται σε διάφορα προϊόντα για να υποδείξει ότι μετά το μόνιμο τερματισμό της χρήσης του το προϊόν, σύμφωνα με την Οδηγία, πρέπει να ανακυκλωθεί και όχι να απορριφθεί. Οι χρήστες ηλεκτρικών και ηλεκτρονικών εξαρτημάτων (electrical and electronic equipment - EEE) που φέρουν το σήμα WEEE σύμφωνα με το Παράρτημα IV της εν λόγω Οδηγίας, δεν πρέπει να απορρίπτουν τα εξαρτήματα αλλά να χρησιμοποιούν το διαθέσιμο πλαίσιο συλλογής για την επιστροφή, ανακύκλωση και ανάκτηση των εξαρτημάτων με σκοπό την ελαχιστοποίηση δυνητικών επιρροών στο περιβάλλον και την ανθρώπινη υγεία εξαιτίας της παρουσίας επικίνδυνων ουσιών στα εξαρτήματα αυτά.

A WEEE jelzés csak az EU tagállamaira és Norvégiára vonatkozik. A berendezések a leselejtezett elektromos és elektronikus berendezésekre (WEEE) vonatkozó 2002/96/EC számú EU direktívának való megfelelést tanúsító címkével vannak ellátva. A direktíva a használt berendezések visszavételének és újrahasznosításának keretrendszerét határozza meg az Európai Unión belül. A különböző termékeken látható címke azt jelenti, hogy a terméket az élettartamának végén nem szabad kidobni, hanem a direktívának megfelelően kell visszanyerni. A WEEE jelzésű elektromos és elektronikai felszerelések (EEE) felhasználóinak, a WEEE direktíva IV. függelékének megfelelően nem szabad vegyes házi szemétként kidobniuk az eszközöket (EEE), hanem a vásárlók számára rendelkezésre álló, meglévő begyűjtési keretrendszert felhasználnak kell gondoskodniuk az elektromos hulladék (WEEE) visszajuttatásáról és újrahasznosításáról, valamint minimalizálniuk kell az eszközök (EEE) lehetséges hatásait a környezetre és az emberi egészségre, a veszélyek megelőzése érdekében.
