- Uno de los siguientes sistemas operativos:
  - Microsoft® Windows® 98
  - Microsoft Windows Millennium Edition (Me)
  - Microsoft Windows 2000 Professional
  - Microsoft Windows XP
- Un conector USB disponible

Los elementos opcionales siguientes son necesarios si va a utilizar la llave de memoria como dispositivo de arranque. Consulte el apartado “Cómo hacer que la llave de memoria pueda arrancar el sistema” en la página 4.

- El BIOS que dé soporte a dispositivos USB de arranque. Si no está seguro de si el BIOS da soporte a dispositivos USB de arranque, póngase en contacto con el fabricante del sistema. Puede que, si lo necesita, exista una actualización disponible.
- La documentación del BIOS que se suministra con el sistema o la actualización del BIOS, si procede.

---

### Instalación de la llave de memoria en Windows Me, Windows 2000 o Windows XP

Windows Me, Windows 2000 y Windows XP ofrecen soporte incorporado para la llave de memoria USB 2.0 y no son necesarios controladores de dispositivo. Simplemente se debe conectar la llave de memoria al conector USB. La llave de memoria ya está lista para que se utilice y se visualice como disco extraíble con una designación de letra (por ejemplo, la E:).

---

### Instalación de la llave de memoria en Windows 98

Los archivos de controlador de dispositivo de Windows 98 deben estar instalados en el sistema para poder utilizar la llave de memoria. Para instalar los controladores de dispositivo de la llave de memoria en Windows 98, haga lo siguiente:

1. Conecte la llave de memoria al conector USB.
2. Se abrirá la ventana Asistente para el nuevo hardware.
3. En la ventana Asistente para el nuevo hardware pulse **Siguiente**.
4. Seleccione **Buscar el mejor controlador para el dispositivo** y, a continuación, pulse **Siguiente**.
5. Seleccione **CD-ROM** y pulse **Siguiente**. Siga las instrucciones que aparecen en la pantalla.
6. La llave de memoria ya estará lista para utilizar y se visualiza como un disco extraíble en la ventana Mi PC.

**Nota:** Un diodo emisor de luz (LED) parpadeará indicando que se está accediendo a los datos. No extraiga la llave de memoria mientras el LED parpadee ya que podría ocasionar la pérdida de los archivos de datos.

---

## Utilización del software de seguridad

Este apartado explica cómo utilizar el software de seguridad de la llave de memoria USB de 128 MB de IBM.

### Introducción

La primera vez que utilice el hardware de la llave de memoria, aparecerá como icono de disco extraíble en la ventana Mi PC. Pulse el icono de disco extraíble para visualizar dos archivos, **Login.exe** y **Partition.exe**.

**Login.exe** le permite asignar una contraseña y un inicio de sesión a un área protegida. **Partition.exe** le permite crear un área de almacenamiento protegida y editar su tamaño.

Puede elegir utilizar la llave de memoria de una de estas formas:

- Conserve la llave de 128 MB como área de almacenamiento pública y haga que su sistema la pueda arrancar. Consulte el apartado “Cómo hacer que la llave de memoria pueda arrancar el sistema” en la página 4.
- Cree dos áreas de almacenamiento, un área pública y un área protegida con contraseña. Consulte el apartado “Puesta a punto del área protegida” que figura a continuación.

**Nota:** Al crear un área protegida se elimina la posibilidad de arranque de la llave de memoria.

### Puesta a punto del área protegida

#### Atención

Al utilizar el programa de utilidad **Partition.exe** se elimina la posibilidad de arranque que por omisión viene de fábrica. Elimine este archivo si está pensando utilizar la llave para arrancar el sistema. Consulte el apartado “Cómo hacer que la llave de memoria pueda arrancar el sistema” en la página 4.

Para crear el área de almacenamiento protegida, efectúe una doble pulsación sobre **Partition.exe** y siga las instrucciones que aparecerán por pantalla. Se le solicitará que escriba una contraseña y una indicación adicional (en caso de que se olvide de la contraseña).

Tras crear un área protegida, efectúe una doble pulsación sobre **Login.exe** y siga las instrucciones que aparecen por pantalla para asignar una contraseña al área protegida.

## Acceso al área protegida

Una vez establecida la contraseña, efectúe una doble pulsación sobre **Login.exe** y escriba su contraseña para obtener acceso al área protegida. Siga las instrucciones que aparecen por pantalla para cambiar la contraseña o visualizar su indicación.

Si ha escrito la contraseña incorrecta tres veces seguidas, deberá restablecer la llave.

**Atención:**

Al restablecer la llave se borrarán todos los datos del área protegida.

**Nota:** No hay disponible soporte para alterar temporalmente la protección de la contraseña.

Los datos del área pública no se verán afectados. Tras la operación de restablecer, efectúe una doble pulsación sobre **Logine.exe**

## Finalización de la sesión del área protegida

Desde el área protegida, efectúe una doble pulsación sobre el archivo **Logout** para salir del área protegida y volver al área pública.

**Atención**

Asegúrese de guardar y salir de todos los archivos abiertos antes de finalizar la sesión del área protegida.

## Cambio del tamaño de la partición del área protegida

**Atención**

No olvide realizar una copia de seguridad de los datos antes de cambiar la partición. Al cambiar el tamaño del área protegida se perderían por completo datos que se pudieran encontrar tanto en áreas de almacenamiento público como protegido .

Para cambiar el tamaño de la partición del área protegida, realice lo siguiente:

1. Efectúe una doble pulsación sobre el archivo **Partition.exe** y siga las instrucciones que aparecerán por pantalla para cambiar el tamaño del área protegida.
2. Efectúe una doble pulsación sobre el archivo **Login.exe** y escriba su contraseña para abrir el área protegida nueva.

**Nota:** Al cambiar el tamaño del área protegida no se cambia la contraseña.

## Modalidad de suspensión o hibernación con la llave de memoria activa

Si el sistema pasa a la modalidad de suspensión o hibernación mientras la llave se encuentra en el área protegida, pulse la tecla F5 para renovar la pantalla.

Cuando aparezca el área pública, utilice el mandato **Login.exe** para volver a acceder a la misma.

Si el área pública aparece mientras la máquina pasa a la modalidad de hibernación, no es necesario renovar la pantalla pulsando la tecla F5.

---

## Cómo hacer que la llave de memoria pueda arrancar el sistema

Para que la llave de memoria pueda iniciar el sistema, haga lo siguiente:

1. Póngase en contacto con el fabricante del sistema o portátil para confirmar si el BIOS soporta las llaves de memoria USB y el arranque con un dispositivo USB. Puede que tenga que bajar alguna actualización del BIOS para activar estas funciones.
2. Apague el sistema. Arranque el sistema y espere a que éste termine su inicialización.
3. Conecte la llave de memoria a cualquier conector USB disponible y espere a que aparezca el escritorio.
4. Inserte la llave de memoria en cualquier conector USB disponible y espere a que el sistema operativo la reconozca.
5. Transfiera todos los archivos que desee guardar de la llave de memoria a otro dispositivo de almacenamiento.
6. Inserte el CD que acompañaba a la llave de memoria.
7. En la ventana del CD, localice la carpeta **Software** y ábrala. Pulse el archivo **Memkeyboot.exe**. Este archivo ejecutable buscará la llave de memoria. Si no se puede encontrar la llave, aparecerá un mensaje de error.
8. Seleccione **Aceptar** y la aplicación dará formato automáticamente a la llave de memoria y transferirá los archivos de tipo PC-DOS necesarios. Si la aplicación determina que la llave de memoria se ha particionado, aparecerá un mensaje de error. Consulte el apartado “Cambio del tamaño de la partición del área protegida” en la página 3 para obtener información sobre cómo convertir en pública toda la llave de memoria.
9. Después de que la aplicación termine satisfactoriamente aparecerá un mensaje de confirmación. Si desea ver los archivos de arranque de la llave, es posible que tenga que conectar de nuevo la llave de memoria al sistema.
10. Consulte la documentación del sistema sobre cómo acceder a los valores del BIOS.
11. Apague el sistema. Asegúrese de que la llave de memoria esté insertada en un conector USB que esté disponible.
12. Inicie el sistema y utilice los pasos marcados en la documentación del sistema para acceder a los valores del BIOS.
13. En el BIOS, localice el apartado que determina el orden de arranque de los dispositivos de la configuración del sistema. Cambie el orden de arranque de los dispositivos de la forma siguiente:
  - a. Unidad de disquetes legal (unidad de disquetes de 3,5 pulgadas)

**Nota:** Sólo para sistemas y portátiles con unidades de disquetes de 3,5 pulgadas.

- b. Unidad de CD-ROM ATAPI u otra unidad óptica, como por ejemplo DVD.
  - c. Unidad de disco duro - llave de memoria USB.
  - d. Unidad de disco duro - unidad de disco duro principal que contiene el sistema operativo o archivos de datos.
14. Guarde los valores nuevos y salga del BIOS.
  15. Reinicie el sistema con la llave de memoria conectada; el sistema arrancará e irá al indicador del DOS.

---

## Recuperación de los archivos del programa de utilidad

Si suprime o pierde los archivos de utilidad, **Login.exe** y **Partition.exe**, podrá volverlos a instalar desde el CD que se suministra con este dispositivo. Para copiar los archivos, haga lo siguiente:

1. Inserte el *CD de la llave de memoria USB 2.0 de 128 de IBM* en la unidad de CD-ROM.
2. Utilice la ventana del navegador de su sistema operativo (por ejemplo, el Explorador de Windows) para buscar el directorio `D:\software`, donde D: es la letra del CD-ROM.
3. Abra la llave de memoria en otra ventana del navegador.
4. Copie los archivos del CD a la ventana de la llave de memoria.

Si crea el "área protegida", habrá dos archivos residentes adicionales, **Logout.exe** y **Desktop.ini**. Pueden reinstalarse siguiendo los pasos del 1 al 4, pero se tendrán que copiar en el "área protegida" de la llave.

# IBM Statement of Limited Warranty Z125-4753-06 8/2000

## Part 1 - General Terms

This Statement of Limited Warranty includes Part 1 - General Terms and Part 2 - Country-unique Terms. The terms of Part 2 replace or modify those of Part 1. The warranties provided by IBM in this Statement of Limited Warranty apply only to Machines you purchase for your use, and not for resale, from IBM or your reseller. The term "Machine" means an IBM machine, its features, conversions, upgrades, elements, or accessories, or any combination of them. The term "Machine" does not include any software programs, whether pre-loaded with the Machine, installed subsequently or otherwise. Unless IBM specifies otherwise, the following warranties apply only in the country where you acquire the Machine. Nothing in this Statement of Limited Warranty affects any statutory rights of consumers that cannot be waived or limited by contract. If you have any questions, contact IBM or your reseller.

**The IBM Warranty for Machines:** IBM warrants that each Machine 1) is free from defects in materials and workmanship and 2) conforms to IBM's Official Published Specifications ("Specifications"). The warranty period for a Machine is a specified, fixed period commencing on its Date of Installation. The date on your sales receipt is the Date of Installation unless IBM or your reseller informs you otherwise.

If a Machine does not function as warranted during the warranty period, and IBM or your reseller are unable to either 1) make it do so or 2) replace it with one that is at least functionally equivalent, you may return it to your place of purchase and your money will be refunded.

**Extent of Warranty:** The warranty does not cover the repair or exchange of a Machine resulting from misuse, accident, modification, unsuitable physical or operating environment, improper maintenance by you, or failure caused by a product for which IBM is not responsible. The warranty is voided by removal or alteration of Machine or parts identification labels.

**THESE WARRANTIES ARE YOUR EXCLUSIVE WARRANTIES AND REPLACE ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THESE WARRANTIES GIVE YOU SPECIFIC LEGAL RIGHTS AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM JURISDICTION TO JURISDICTION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF EXPRESS OR IMPLIED WARRANTIES, SO THE ABOVE EXCLUSION OR LIMITATION MAY NOT APPLY TO YOU. IN THAT EVENT, SUCH WARRANTIES ARE LIMITED IN DURATION TO THE WARRANTY PERIOD. NO WARRANTIES APPLY AFTER THAT PERIOD.**

**Items Not Covered by Warranty:** IBM does not warrant uninterrupted or error-free operation of a Machine. Any technical or other support provided for a Machine under warranty, such as assistance via telephone with "how-to" questions and those regarding Machine set-up and installation, will be provided **WITHOUT WARRANTIES OF ANY KIND.**

**Warranty Service:** To obtain warranty service for a Machine, contact IBM or your reseller. If you do not register your Machine with IBM, you may be required to present proof of purchase.

During the warranty period, IBM or your reseller, if approved by IBM to provide warranty service, provides without charge certain types of repair and exchange service to keep Machines in, or restore them to, conformance with their Specifications. IBM or your reseller will inform you of the available types of service for a Machine based on its country of installation. At its discretion, IBM or your reseller will 1) either repair or exchange the failing Machine and 2) provide the service either at your location or a service center. IBM or your reseller will also manage and install selected engineering changes that apply to the Machine.

Some parts of IBM Machines are designated as Customer Replaceable Units (called "CRUs"), e.g., keyboards, memory, or hard disk drives. IBM ships CRUs to you for replacement by you. You must return all defective CRUs to IBM within 30 days of your receipt of the replacement CRU. You are responsible for downloading designated Machine Code and Licensed Internal Code updates from an IBM Internet Web site or from other electronic media, and following the instructions that IBM provides.

When warranty service involves the exchange of a Machine or part, the item IBM or your reseller replaces becomes its property and the replacement becomes yours. You represent that all removed items are genuine and unaltered. The replacement may not be new, but will be in good working order and at least functionally equivalent to the item replaced. The replacement assumes the warranty service status of the replaced item. Many features, conversions, or upgrades involve the removal of parts and their return to IBM. A part that replaces a removed part will assume the warranty service status of the removed part.

Before IBM or your reseller exchanges a Machine or part, you agree to remove all features, parts, options, alterations, and attachments not under warranty service.

You also agree to

1. ensure that the Machine is free of any legal obligations or restrictions that prevent its exchange;
2. obtain authorization from the owner to have IBM or your reseller service a Machine that you do not own; and
3. where applicable, before service is provided:
  - a. follow the problem determination, problem analysis, and service request procedures that IBM or your reseller provides;
  - b. secure all programs, data, and funds contained in a Machine;
  - c. provide IBM or your reseller with sufficient, free, and safe access to your facilities to permit them to fulfill their obligations; and
  - d. inform IBM or your reseller of changes in a Machine's location.

IBM is responsible for loss of, or damage to, your Machine while it is 1) in IBM's possession or 2) in transit in those cases where IBM is responsible for the transportation charges.

Neither IBM nor your reseller is responsible for any of your confidential, proprietary or personal information contained in a Machine which you return to IBM or your reseller for any reason. You should remove all such information from the Machine prior to its return.

**Limitation of Liability:** Circumstances may arise where, because of a default on IBM's part or other liability, you are entitled to recover damages from IBM. In each such instance, regardless of the basis on which you are entitled to claim damages from IBM (including fundamental breach, negligence, misrepresentation, or other

contract or tort claim), except for any liability that cannot be waived or limited by applicable laws, IBM is liable for no more than

1. damages for bodily injury (including death) and damage to real property and tangible personal property; and
2. the amount of any other actual direct damages, up to the charges (if recurring, 12 months' charges apply) for the Machine that is subject of the claim. For purposes of this item, the term "Machine" includes Machine Code and Licensed Internal Code.

This limit also applies to IBM's suppliers and your reseller. It is the maximum for which IBM, its suppliers, and your reseller are collectively responsible.

**UNDER NO CIRCUMSTANCES IS IBM LIABLE FOR ANY OF THE FOLLOWING: 1) THIRD-PARTY CLAIMS AGAINST YOU FOR DAMAGES (OTHER THAN THOSE UNDER THE FIRST ITEM LISTED ABOVE); 2) LOSS OF, OR DAMAGE TO, YOUR RECORDS OR DATA; OR 3) SPECIAL, INCIDENTAL, OR INDIRECT DAMAGES OR FOR ANY ECONOMIC CONSEQUENTIAL DAMAGES, LOST PROFITS OR LOST SAVINGS, EVEN IF IBM, ITS SUPPLIERS OR YOUR RESELLER IS INFORMED OF THEIR POSSIBILITY. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.**

#### **Governing Law**

**Governing Law:** Both you and IBM consent to the application of the laws of the country in which you acquired the Machine to govern, interpret, and enforce all of your and IBM's rights, duties, and obligations arising from, or relating in any manner to, the subject matter of this Agreement, without regard to conflict of law principles.
